Dear Parents/Carers,

Re: Year 10 English 'Golden Days'

We are pleased to provide your child with a 'golden' opportunity! An opportunity to gain bespoke support in English from Trust level experts and our fabulous Beacon Hill Academy staff.

Careful analysis of your child's current performance has been undertaken which has identified their highest leverage areas of development in English. Critically, this has enabled us to better prepare them for their upcoming GCSE Mock examinations.

A bespoke 'Golden Day' intervention session will take place at the Black Country and Marches Institute of Technology on **Monday 20th June 2022**.

Transport has been provided via a coach, which will see your child taken from Beacon Hill Academy to the venue at 8:45am and dropped back off at school at approximately 2:45pm. The venue represents a state-of-the-art learning facility and is set up as a space which is very different to school. It comprises of a number of break out style rooms and is furnished with a number of high tech gadgets and devices, which will enable our staff to deliver these sessions in what represents a more mature / college 'style' environment. We believe our learners will benefit from this unique and tailored approach.

A lunch buffet will be provided at the refectory in the venue free of charge for all learners. If your child has any specific dietary needs, please can you make us aware by contacting reception and leaving details for Mrs Hayley Oakley at least a day prior to the trip so we can accommodate their needs.

This represents a fantastic opportunity for them to hone their exam technique in in preparation for their upcoming Mock examination. By facilitating this workshop, we hope your child will feel even more motivated and importantly, we believe they will be given the skills to achieve and go beyond their potential!

Please can you complete the forms on Weduc to confirm their attendance.

Yours sincerely,

Mr S Dhami
Principal
